Parent Education Event

February 26
6:00-8:00 PM
North Star Charter
Gymnasium
839 N Linder Rd, Eagle

In today's world, it is critical that parents are **empowered** to help protect their children in every way possible. The **Save My Family** event is geared to provide you with the **tools, insights, and resources** to better enable you to understand several of the major forces that are impacting your **kids' psychological, emotional, and physical well-being**.

We have assembled a **panel of experts** to provide training and inspiration on how to successfully navigate the waters that kids and teens are caught in.

*There is so much that parents don't know.
And so much kids need to discuss.*

Be enlightened by the experts -- **Officer Gomez, pediatric neurologist Dr. Condie, former FBI Agent Hart, and Nurse Kelli**. They'll discuss **social media, drugs, addiction**, and other issues parents need to know about to keep your kids safe.

Parents with kids of all ages and teens are invited.
